Real-time insights, aggregated and scored from multiple providers, paint a dynamic picture of consumer interest.

We adhere to data privacy norms, ensuring all our data is opt-in and data regulation compliant

PRODUCT OVERVIEW - ONLINE CONSUMER BEHAVIOR

Customer Success Story

Customer:

Food Delivery Company

Target Market:

Non-Brand Aware Prospects

Overview:

As a food delivery company with a very targeted (health-related) niche, maximizing their ability to effectively target was key to increasing revenue. After working through a variety of marketing tactics, the client ran out of viable options.

Solution:

The company utilized Online Consumer Behavior intent data to find people searching for related keywords pertaining to ailment data. BIGDBM took their intent model (IAB categories and keywords) and processed it against the full Online Consumer Behavior file to identify specific individuals that fit the model.

Outreach Tactics:

3 separate emails to a list of the **50,000** identified individuals.

200,000 social impressions via a targeted ad campaign

Results:

Campaign ended with a very successful **2.38% CTR**

2x increase in unique visits to their website

15x new Clients in the first 30 days

2500 new leads for future CRM campaigns
